

- Screenshot 3D view from Fusion360 or other CAD program.

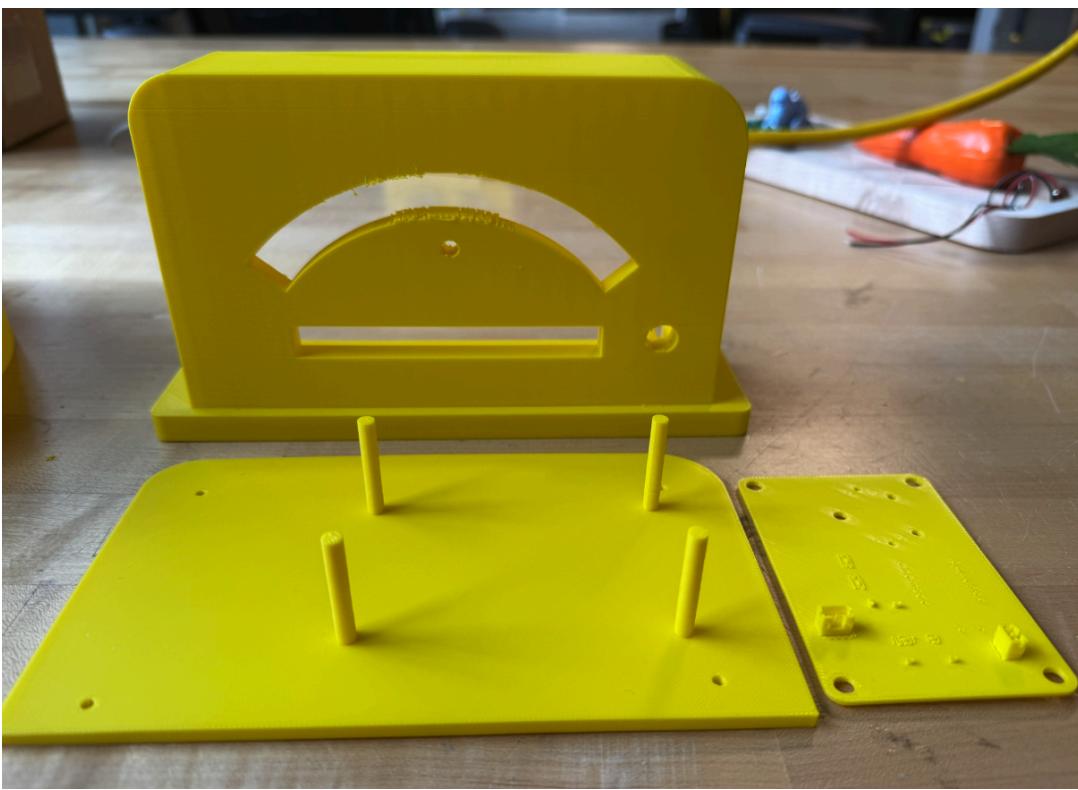

Display device:

Sensor device: My sensor device is a hat worn on the head.

- Photo of 3D printed (and/or laser cut, etc) parts laid out separately.

- Photo of your assembled mockup

Display device:

Assemble the PCB and back cover

Head sensor:

The covers' size is not right, and needs adjustment.

For the final product, the hat will be a knit hat and the PCB will be sewed at the side.
